- Large, dual-position hand grips allow users of all sizes to exercise in the most comfortable and natural position.
- Altering the hand position allows customization of exercise and promotes muscle balance.

- Perfect blend of upper and lower body exercise.
- Optimized kinetic energy for extremely smooth movement.
- Bi-directional resistance helps create balance between reciprocal muscle groups.
- REAL Strenth™ program provides safe, accommodating resistance training for all exercise abilities.

- Low profile seat back for optimized torso rotation and core recruitment.
- Optional swivel seat available.
