MYE Eclipse Series Wireless Replacement Receiver

The State-of-the-Art Replacement for All Your Old Cardio Theater and BroadcastVision Receivers.

The super compatible new MYE Eclipse Series Wireless replacement receiver takes the hassle out of upgrading your old Cardio Theater and BroadcastVision receivers. The MYE Eclipse Series receiver is packed with the latest state-of-the-art wireless technology and features including combining 900MHz or 800MHz and FM Radio in one unit. As the industry leader in entertainment technology, superior MYE performance and reliability make this the last entertainment receiver you'll ever need to purchase.

- MYE Eclipse Series Wireless Replacement Receivers work with all 900/800MHz and FM TV transmitter brands including:
Cardio Theater • BroadcastVision / BVE • MYE Entertainment • Enercise • Audeon
- TV Audio and FM Radio Combined – now your customers can enjoy both TV audio and local FM radio!
- Self-Diagnostic Headphone Jack – flashing icon alerts maintenance personnel when to replace faulty headphone jack. No more down time or upset customers!
- Sleek Compact Design with Large Easy to Read LCD Display
- New Secure Grip Mounting Band – combines traditional and new mounting technologies for quick and secure installation on any cardio machine

MYE 900MHz/800MHz Dual Diversity Transmitter

MYE transmitters feature the most comprehensive state-of-the-art wireless technology including the first in the industry with a Dual Diversity Antenna System assuring the most reliable static and drift-free transmission.

MYE 900MHZ/800MHZ TRANSMITTER FEATURES INCLUDE:

- Dual Diversity Antenna System – static and drift-free transmission
- Available in 900MHz and 800MHz Wireless Formats – worldwide compatibility including USA, UK, Europe and more
- Automatic Level Control – enjoy distortion free sound without concern for loud commercials or audio track spikes
- Detachable Mounting Bracket – provides for easy and secure installation on virtually any surface including walls
